# BUSINESS PARTNERS

## "HELLO" TO YOU

Looking for the right cloth and supplier for your company? We are here to help you. We supply products ranging from high end to mass market clothing, promotional items to high end. We are partners to highly marketable leaders of the apparel industry.

QUALITY GOODS AT AFFORDABLE PRICE

We have built unique & strong sourcing and supply chain management techniques that give quality services to our business partners. We are well-known for our expertise and professionalism in handling the entire process from concept to fulfillment.

## Fashion Design

We complement our client's design department. We create styling according to the client's specifications on fabrics, garments and accessories. We research on consumer demands and future trends. Using latest technology, we keep abreast of the developments in the fashion industry and initiate trendy products.

## Yarn, Fabric & Accessories Research

We are in the process of developing an exclusive "Yarn & Fabric Library" which will be our clients elite research center. The library will keep our clients updated of the current trend and advise them regarding the country of production which will allow them to enjoy preferential tariffs and duties.

## Product Development

With our well-established relationship with the factories including some of our own factories, we are able to get samples at the right quantity at the right time. We ensure that samples are made according to the client's specifications. We also re-create and modify popular styling to suit our clients demands.

## Production Planning & Manufacturing Control

Together with our experienced staffs, we plan and organize the entire production process systematically. Every step of the process carefully planned and recorded. We monitor daily and weekly output to ensure timely delivery.

## Quality Assurance

We Ensure that factories produce according to our client's requirements and specifications. Our team of quality controllers and conduct regular checks to assure quality is maintained at all times. Our QC's specialize in raw materials to finished goods inspection. They are also equipped with knowledge to give technical assistance to manufactures and high-end tools to conduct precise checks.

## Logistic Coordination & Export Documentation

We take care of all the necessary shipping arrangement and ensure all documentary procedures are made accordingly so that all shipments reach our clients promptly.

### Raw Material Sourcing

Our strong team of researchers source and evaluate the mills & accessories manufacturers on the field. With our strong global network, we only seek yarn, fabric & accessories of the best quality and competitive price for our clients.

## Factory Strength

We have a network of more than 20 factories in over Bangladesh. The factories specialize in all types of apparels. Our evaluation team and quality controllers always ensure that all the factories are well-equipped and qualified.

## Order Negotiation

We safeguard client's interest at all times. We always offer a very competitive price with quality. We filter the factories carefully & ensure our client's expectations meet accordingly.

## Work in Progress Supervision

We believe that the only way to quality and timely delivery is to monitor an order from its inception. We follow through the order from fabric production and dyeing to delivery to the production line.

## QUALITY CONTROL:

We maintain a high standard in the whole process of the textile industry. From sourcing of raw cotton to the finished and packaged garment, every Step is analyzed with the careful quality checkpoints.

Trained and experience controllers ensure the quality of the products.

This is the key factor to obtain the quality needed to fit every International standard.

In-line inspection is a quality control service that takes place during the Manufacturing process of product.

Our quality controllers specialized in textile inspector go the factories and Inspect all the products during their production process.

What we check during the production process that is below:

- Shade.
- Weight.
- Hand feel.
- Shrinkage.
- Fabric inspection.
- Measurement check on each size before iron & after iron.
- Packing inspection.
- Daily in-line inspection.
- Pre-final.
- Final Inspection.
- Risk Analysis.

Our selected all factory are committed to doing their ethical and responsibly.

To do ends all employees and third parties working

Are explicitly bounded by the social enviromental responsibility.

Values defined by intern national agreements like "ACCORD" on fire and building safety in Bangladesh or "The Alliance for Bangladesh work safety" Also they have another certificate like as below.

- No forced labor.
- No child labors.
- No didcrimination.
- Documented employee.
- Production traceability.
- Product health and safety.
- Environment pledge.

# FACTORY CERTIFICATES

In order to protect human health and environment from the risks arising from the use of chemicals, We are practicing REACH regulation. Its dye-house & production units are OEKO-TEX certified. We are also ensuring the other's certification.
